ACCOMMODATION GUIDE—CANADA'S NATIONAL PARKS

1968-69

Selected areas of the outstanding and varied natural scenery of Canada are preserved in 18 national parks across this vast country. From the surf-washed shores of the Atlantic, across the great central plains to the snow-capped peaks of the Rockies, a chain of these parks offers vacation opportunities amid the wonders of nature.

Facilities for the accommodation of park visitors vary widely from campgrounds and trailer areas in carefully selected locations, to luxury resorts, hotels, and other establishments with every up-to-date convenience.

Commercial Accommodation

All visitor accommodation in the national parks is inspected by the National Parks Service and maximum daily rates are posted in rooms to inform guests of correct charges. Rates quoted here are the latest available as at Jan. 8, 1968 and may be subject to change. Meals are included with American Plan rates (marked A) but most rates are for European plan.

To avoid disappointment, it is advisable to write to the establishments concerned in advance for reservations. The Parks staff cannot arrange for reservations.

Camping

Daily fees at all campgrounds are \$1 for an unserviced site; \$1.50 for a site with electricity; and \$2 for a site with water, electricity, and sewer connections.

Campsites are allocated on a first-come, first-served basis and no reservations can be made. At most campgrounds, there is a limit on stay, usually of two weeks.

No camping is allowed in the National Parks

except at campgrounds unless permission and the necessary camping and fire permits are obtained from a park warden. Camping in picnic areas or along the sides of highways and roads is not permitted.

Group camping sites are provided in each park and organized groups wishing to use these should write to the Superintendent to make a reservation. These sites may be used only by organized groups, such as Boy Scouts or Girl Guides, led by a qualified and responsible person.

The normal camping season in the National Parks is from late May to October but the camping season is shorter in campgrounds located in the mountains.

All electrical services in campgrounds are 60 cycle and nearly all campgrounds offer free firewood. Trailer areas are designed for trailers and camping vehicles equipped to use the services provided and tenters and other campers who do not need these services should use the other campsites i.e., which are equipped with picnic tables and barbecue grills for cooking over a wood fire. To prevent damage to the campgrounds and campers' property, wood fires are permitted only in stoves, grills, and fireplaces especially established for this purpose.

Information on camping techniques is provided in the booklet "Family Camping" available at 75 cents at park information offices or by mail from the Queen's Printer, Ottawa.

Picnic Areas

Many picnic areas are provided free at selected locations usually convenient to park roads. Tables, fireplaces and drinking water are available at most of these. Camping is not permitted in picnic areas.

National Park Campgrounds — Ontario

Camping

Daily fees at all campgrounds are \$1 for an unserviced site; \$1.50 for a site with electricity; and \$2 for a site with water, electricity, and sewer connections.

Campsites are allocated on a first-come, first-served basis and no reservations can be made. At most campgrounds, there is a limit on stay, usually of two weeks.

No camping is allowed in the National Parks except at campgrounds unless permission and the necessary camping and fire permits are obtained from a park warden. Camping in picnic areas or along the sides of highways and roads is not permitted.

Group camping sites are provided in each park and organized groups wishing to use these should write to the Superintendent to make a reservation. These sites may be used only by organized groups, such as Boy Scouts or Girl Guides, led by a qualified and responsible person.

The normal camping season in the National Parks is from late May to October but the camping season is shorter in campgrounds located in the mountains.

All electrical services in campgrounds are 60 cycle and nearly all campgrounds offer free firewood. Trailer areas are designed for trailers and camping vehicles equipped to use the services provided and tenters and other campers who do not need these services should use the other campsites i.e., which are equipped with picnic tables and barbecue grills for cooking over a wood fire. To prevent damage to the campgrounds and campers' property, wood fires are permitted only in stoves, grills, and fireplaces especially established for this purpose.

Information on camping techniques is provided in the booklet "Family Camping" available at 75 cents at park information offices or by mail from the Queen's Printer, Ottawa.

Point Pelee National Park *Leamington, Ontario*
